4-- 6 1/2" X 5"

Funky Baskets

Funky Baskets Instructions:

- 1- Place basket block on top of matching size background piece- right sides for BOTH pieces facing up
 - 2- Lay your ruler down at an angle and cut -Repeat this process with opposite side. Play with the angle and keep the cut line away from the corner.
 - 3- Switch fabric around- the basket fabric in the center, background on either side- sew together the background to the basket.
- * You will have extra fabric leftover. Set aside for other blocks that will be coming in the row quilt.
 - * Match up the edge of the basket with one background side. Make sure you have the little tips peaking out- this way they will line up just right when folded back and ironed.
- 4- Repeat with other side, iron
 - 5- Trim up the basket to the size listed:
 - 6- Lay ric rac out on background piece until happy, cut the length, Glue to secure in a few spots under the ric rac
- * Ends of ric rac will be sewn in the bottom seam
- 7- Place upper background right sides facing on top of basket part, stitch together, making sure the ric rac is in the seam as well.
 - 8- Square up to sizes mentioned above materials list.
 - 9- Sew all blocks into a single row - randomly placed.
